- Translated notarized office documents across various fields between English and Vietnamese with high accuracy.
- Ensured consistency, confidentiality, and attention to detail in official documentation.

PERSONAL AND TECHNICAL PROJECTS

Personal Portfolio

URL: <https://quangdoan7.github.io/Portfolio/>

- Developed a personal portfolio to showcase technical projects and skills.
- Built using HTML, CSS, and React.

Pet Café Website

URL (YouTube video): <https://youtu.be/y5mU7odOGSY>

- Developed a pet café website that has multiple pages for the introduction, events, menu, job postings, blog posts and contact information.
- Included mini map for a clear location, and comment section at blog posts for customer interaction.
- Built using WordPress.

ColorEase

URL: <https://github.com/QuangDoan7/ColorEase>

- Motivated by cousin's colorblind condition, a real-time camera-based application designed and built to assist individuals with color vision deficiency in distinguishing colors more effectively (developed for Deuteranopia, being expanded to more conditions of color blindness later).
- Built using Python, with research and applied concepts related to color vision deficiency and image processing, focusing on Deuteranopia and planned expansion to additional conditions.
